Breed: _____			Microchip# _____			

Euthanasia is a possible outcome of surrendering an animal to GCAS. This is especially true if the animal is sick, injured, if the animal has a negative behavior or temperament problem, has never been seen by a veterinarian or vaccinated for common communicable diseases.

GCAS is wholly committed to reducing the number of animals euthanized at our shelter. We are striving to become an Adoption Guarantee Organization. Our hope and vision are to see the time when all healthy and treatable animals brought to our shelter find new homes.

In addition to animals adopted by the public from our shelter, many animal rescue organizations partner with GCAS to increase the number of shelter animals adopted and reduce the number of animals euthanized. Many shelter animals are transferred, at no-cost or low-cost, to animal welfare organizations that help us with the adoption of the animals we receive.

While we are making tremendous progress, we cannot at this time guarantee that we will be able to place the animal for adoption. We are unable to guarantee to you that someone else will want and adopt this pet. We realized that your decision is a difficult one and hopefully you have given this decision a great deal of thought. We recognize that you may have turned to us because you have exhausted all other resources. We sincerely do wish to help and pledge our efforts to you and this pet in this regard.

I have read the foregoing and understand that by surrendering this animal(s) to GCAS, that ownership of the animal(s) will pass to the county and that the animal(s) may be euthanized. I hereby voluntarily and permanently surrender the animal(s) to GCAS.
